### Happenings in Lake Worth

#### Hurricane Seminar

The City of Lake Worth is hosting a Hurricane Seminar on Wednesday, May 28, 2008, at 7:00 p.m. at the Shuffleboard Courts, located at 1121 Lucerne Avenue.

Steve Weagle, Meteorologist with WPTV Channel 5 News, will be a guest speaker. A Free Raffle Prize Drawing will also be held.

For more information, please call Kevin Addison at 585-5313.

#### LAKE WORTH CITY HALL

On Tuesday, the City Commission will be voting on changing the beach zoning from Public Recreation and Open Space to a commercial zoning, BAC. The Department of Community Affairs and the Intervenor just settled with the City. The DCA was not interested in what the Intervenor had to say, one of whom was I. We have been fighting this for going on two years. We encourage anyone interested in our public beach to come to City Hall at 6pm and turn in a comment card. We want to keep our beach a beach.

Robert Kanjian  
County Commissioner District 3

On Monday, May 19th at 7pm, the Residents of Lake Osborne Estates will have County Commissioner Robert Kanjian as speaker. He is the replacement for Warren Newell now in jail.

Everyone come out and meet him and ask him the tough questions. Perhaps, as a starter, we can convince him to plant trees on our median strip on 6th Avenue South west of I-95.

On May 14th, one of the boilers blew at the Lake Worth Power Plant. The noise was indescribable and lasted about 20 minutes. Right now we have lost 2/3rd's of our back-up generation. Go to [www.lakeworthmedia.com](http://www.lakeworthmedia.com) for info.
